SUMMARY

Computer Science student with hands-on experience in AI-based applications and software development. Proficient in Python, Java, and machine learning frameworks, with experience building GUI-based and database-driven systems. Seeking a summer internship to apply problem-solving and software development skills in real-world environments.

EDUCATION

Sukkur IBA University

Bachelor of Science in Computer Science

Sukkur, Pakistan

Aug. 2024 – Present

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Digital Logic Design, Calculus, Linear Algebra

PROJECTS

NemoScan — AI Diagnostic System | *Python, PyTorch, PySide6*

2025

- Developed an AI-based desktop application for pneumonia detection using chest X-ray images.
- Built a 7-model ensemble to improve prediction reliability and model performance.
- Preprocessed medical image dataset including normalization and resizing for training.
- Implemented Grad-CAM visualizations to enhance interpretability of model predictions.
- Designed an interactive GUI using PySide6 for real-time image analysis.

Hospital Management System | *Java, SQL*

2025

- Designed and developed a database-driven hospital management system for administrative operations.
- Implemented modules for patient management, doctor records, appointment scheduling, and billing.
- Designed relational database schema and performed CRUD operations using SQL.
- Applied normalization techniques to improve data integrity and reduce redundancy.
- Structured backend logic for efficient handling of user operations and data flow.

TECHNICAL SKILLS

Languages: Python, Java, C++, SQL

Frameworks & Libraries: PyTorch, PySide6

Databases: MySQL

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems

Tools: Git, GitHub

ACHIEVEMENTS

- Completed multiple academic projects demonstrating practical application of programming and database concepts
- Strong foundation in core computer science subjects including DSA, OOP, and DBMS
